

# Quote Comparison Worksheet

Compare car insurance quotes side by side at the SAME coverage limits, so you compare like for like. Fill one column per insurer.

## Make sure every quote uses the same coverage

- ✓ Same liability limits (bodily injury / property damage) on every quote.
- ✓ Same deductibles for collision and comprehensive.
- ✓ Same optional coverages (uninsured motorist, medical/PIP, roadside, rental).
- ✓ Same drivers and the same vehicles listed.
- ✓ Same payment term (6-month vs. monthly) so totals are comparable.
